

# Raja Hammad Naseer

Ilmenau, Germany +49 15252067067 hammadnaseer2230@gmail.com portfolio linkedin github

## Professional Summary

Full-Stack Engineer with 2+ years of production experience building and shipping web applications with React.js, Node.js, TypeScript, and REST APIs. Proven ability to integrate AI capabilities — LLM pipelines, RAG, and agentic workflows — directly into production web products. End-to-end ownership across the deployment lifecycle: Docker, CI/CD, and cloud-ready architecture.

## Technical Skills

|                |                                                                                              |
|----------------|----------------------------------------------------------------------------------------------|
| Frontend       | React.js ( <i>production</i> ), Next.js, Redux, HTML5, CSS3, Tailwind, Responsive UI         |
| Backend        | Node.js ( <i>primary</i> ), Express.js, FastAPI, REST API Design, MVC Architecture           |
| Languages      | TypeScript, JavaScript, Python, SQL, C/C++ (Arduino)                                         |
| AI Integration | LangChain, OpenAI API, RAG Pipelines, LLM Fine-Tuning (QLoRA/PEFT), MCP, Cursor, Claude Code |
| Databases      | MongoDB ( <i>primary</i> ), MySQL, PostgreSQL, ChromaDB                                      |
| DevOps         | Docker, GitHub Actions, CI/CD, Git, Linux                                                    |

## Work Experience

### Full-Stack Developer

2024 – 2025

Jataq Technologies — Pakistan

- Shipped multiple production web applications with zero reported downtime via full-stack TypeScript/Node.js/React.js systems and Docker-based CI/CD pipelines owned end-to-end — from first commit through release under live user traffic.
- Deployed an LLM-powered customer support system into a live product: built RAG pipeline architecture, engineered the prompt chain, and integrated via REST API into existing web infrastructure.
- Shaped the company’s AI tooling strategy through systematic benchmarking of competing LLM frameworks — recommendations adopted directly into the production stack.

### Artificial Intelligence Engineer

2023 – 2024

VisionTech360 — Pakistan

- Shipped EMACS, a full-stack multi-camera face recognition access control platform, to production across multiple live camera installations: React.js dashboard and Node.js/Express REST API backend integrating YOLOv8 detection and ONNX inference.
- Reduced deployment risk via Docker containerisation of all services and a repeatable CI/CD workflow, taking the system from proof-of-concept to live operation with zero friction.

## Projects

### Campus Marketplace — Full-Stack Product, TU Ilmenau

TypeScript, React.js, Node.js, Express.js, MongoDB

- Built a complete student marketplace end-to-end: profiles, listings, search, filtering, responsive UI — validated through direct user interviews with TU Ilmenau students.

### MediChat-AI — LLM-Powered Medical Q&A Application

TinyLlama 1.1B, PyTorch, FastAPI, ChromaDB, Ollama

- Owned ML pipeline of a team-built medical Q&A web app: fine-tuned TinyLlama on consumer hardware (4-bit quantisation + LoRA, ~3GB VRAM), deployed via Ollama, layered ChromaDB RAG, integrated with FastAPI backend.

### WorkAI — Industrial AI Monitoring Platform

React.js, Node.js, YOLOv8, ONNX, Docker

- Full-stack AI monitoring platform: pose estimation and face recognition pipelines exposed via REST APIs into a React.js real-time dashboard with MongoDB event logging, containerised for portable deployment.

### AI Job Application Agent — Agentic Pipeline

Python, LangChain, Gemini API

- Reduced a 30+ min manual process to under 2 minutes by building a multi-step agentic pipeline: job extraction → relevance scoring → context-aware LLM generation → PDF export.

## Education

### M.Sc. Computer & Systems Engineering — Technische Universität Ilmenau, Germany

Oct 2025 – Present

### B.Sc. Computer Science — SZABIST, Pakistan

2019 – 2023

## Certifications & Languages

**Certifications** Node.js — The Complete Guide (MVC, REST APIs, GraphQL) · Google Data Analytics Professional Certificate

**Languages** Urdu (Native) · English (C1 — full professional) · German (B1)
